

Tab 3

Jericho Parking Agreement

I have received the parking lot diagram which indicates the area where I am allowed to park.

I understand that parking in undesignated areas is forbidden and that failure to park in the designated area may result in a written warning and/or termination.

I am aware that our customer parking lot is routinely scanned for stagnant vehicles which are then towed at the owner's expense.

Subject: Derell-Note to file.

Hello, this is a note to file that I spoke to Derell today about his buying. We ran out of a lot of items in our top 30 by mid day Sunday. CV cherries, OG grapes, OG raspberries, blackberries, blueberries, Avocadoes, The only item we had for the front of table 1 (@ 4 p.m.) was pluots. No produce for side tables. No corn for the end cap or outside. I reviewed the movement report from last week with him and showed him that he was out of close to half the items in our top 30. He has had numerous verbal warnings about his buying not being consistent. I asked him if he'd run a movement report lately and he told me no. His last write up I included that he must use the tools (smores, Store ops) he's been taught to use to buy accurately. He kept saying but "last weekend was better" - and that I told him his buying was all over the place and we had a lot of shrink b/c of it so he wanted to "save money this weekend" I've explained to him numerous times about buying for the weekend and how sales and purchase budgets work hand in hand. More sales more to spend. I warned him that if he continues to buy like this he'll be written up and asked to step down from his position. Today is Monday August 13th. 2012.
